## Department of Zoology Department a Program “Snakes and Environment “

Snakes are important component of the natural environment. These keep the balance of prey species on which they feed at the same time predators which feeds on snakes will struggle for food, if snakes are killed. It is very important to identify poisonous and non- poisonous snakes, so that snakes will not be killed only due to myths and fear.

Shri. Banduji Dhotare, President Eco-pro organization, delivered the lecture on the above said title. He explained the role of snakes in environment. He also emphasized not to kill the snake unnecessarily and which type of first aids should be taken immediately after snake bite.

The programme was presided by Principal. Dr. R.P. Ingole. All the faculties and students of Zoology Department were present on this occasion.
